

# DAVIDE CARPINI

## Tech Lead / Senior Software Engineer

AI applications | Web & mobile products

Siena, Italy | +39 346 243 5105 | [carpini.davide@gmail.com](mailto:carpini.davide@gmail.com)

[linkedin.com/in/davide-carpini](https://linkedin.com/in/davide-carpini) | [davidecarpini.github.io](https://davidecarpini.github.io) | [github.com/davidecarpini](https://github.com/davidecarpini)

Senior software engineer with 10+ years of experience building web and mobile products across banking, real-time trading, blockchain and AI. Combines hands-on LLM application development with technical leadership and end-to-end product delivery.

## PROFESSIONAL EXPERIENCE

### VeChain

Jan 2023 - Present

Tech Lead / Senior Software Engineer | Full-time | Remote

Led system design, architecture and product delivery with product and design teams.

- **AI Agent Marketplace** - Led design and development of a platform for creating and interacting with personalized AI agents. Worked on LLM integration, tool calling, RAG, model routing, prompt architecture and evaluation.
- **VeWorld Wallet** - Led React Native mobile development for a self-custodial crypto wallet with **1M+ downloads**.
- **DApp Kit SDK** - Led development of a TypeScript SDK for wallet integration and transaction management.
- **VeBetterDAO** - Led development of a Next.js sustainability platform supporting **2M+ wallet interactions**.

### Kraken Digital Asset Exchange

Jan 2022 - Dec 2022

Senior Software Engineer | Contract | Remote

- Developed and optimized the Kraken Pro trading interface with React and Next.js, addressing high-volume real-time data, frontend performance bottlenecks and complex order types.

### Illimity

Jan 2020 - Jan 2022

Senior Frontend Engineer | Freelance | Milan, Italy

- Developed web and mobile banking applications with TypeScript, React and React Native, including international transfers, cash deposits in shops, AIS and PSD2 payments.

## ADDITIONAL EXPERIENCE

Edgemony | React & JavaScript Instructor / Tutor (Freelance)

Feb 2021 - Feb 2022

VAS / Object Method srl | Software Engineer

2016 - 2019
